PULPDENT®
Kool-Dam™
Heatless Liquid Dam
& Block Out Resin

Light Cure

Control & Comfort

- Stays cool when cured. No heat. No patient discomfort.
- Does not run. Stays where placed.
- Sets like flexible rubber. Tear resistant. Easy to remove.
- Protects tissues, teeth and restorations from power bleaching and microabrasion.
- Hydrophilic. Works well in oral environment.
- Adheres to models for making bleaching trays.
- Blocks out undercuts.
- Repairs tears in rubber dams.
- Good Color Contrast.
- Syringe delivery.

Order from your dental dealer.
